The time period for reply, if any, is set in the attached communication.

Interview Summary

Application No.

10/705,767

Applicant(s)

PEROTTO, RICARDO

Examiner

Patrick Butler

Art Unit

1732

All participants (applicant, applicant's representative, PTO personnel):

(1) Patrick Butler.

(3) Christina Johnson.

(2) Ronald R. Santucci.

(4) Russell Garman.

Date of Interview: 17 May 2007.

Type: a) ☒ Telephonic b) ☐ Video Conference
c) ☐ Personal [copy given to: 1) ☐ applicant 2) ☐ applicant's representative]

Exhibit shown or demonstration conducted: d) ☐ Yes e) ☒ No.
If Yes, brief description: _____.

Claim(s) discussed: Claim 1 of Proposed Claims (attached).

Identification of prior art discussed: Foffano et al. (US Patent No. 5,995,017).

Agreement with respect to the claims f) ☐ was reached. g) ☒ was not reached. h) ☐ N/A.

Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: See Continuation Sheet.

(A fuller description, if necessary, and a copy of the amendments which the examiner agreed would render the claims allowable, if available, must be attached. Also, where no copy of the amendments that would render the claims allowable is available, a summary thereof must be attached.)

THE FORMAL WRITTEN REPLY TO THE LAST OFFICE ACTION MUST INCLUDE THE SUBSTANCE OF THE INTERVIEW. (See MPEP Section 713.04). If a reply to the last Office action has already been filed, APPLICANT IS GIVEN A NON-EXTENDABLE PERIOD OF THE LONGER OF ONE MONTH OR THIRTY DAYS FROM THIS INTERVIEW DATE, OR THE MAILING DATE OF THIS INTERVIEW SUMMARY FORM, WHICHEVER IS LATER, TO FILE A STATEMENT OF THE SUBSTANCE OF THE INTERVIEW. See Summary of Record of Interview requirements on reverse side or on attached sheet.

Examiner Note: You must sign this form unless it is an Attachment to a signed Office action.

Patrick Butler
Examiner's signature, if required

Summary of Record of Interview Requirements

Manual of Patent Examining Procedure (MPEP), Section 713.04, Substance of Interview Must be Made of Record

A complete written statement as to the substance of any face-to-face, video conference, or telephone interview with regard to an application must be made of record in the application whether or not an agreement with the examiner was reached at the interview.

Title 37 Code of Federal Regulations (CFR) § 1.133 Interviews Paragraph (b)

In every instance where reconsideration is requested in view of an interview with an examiner, a complete written statement of the reasons presented at the interview as warranting favorable action must be filed by the applicant. An interview does not remove the necessity for reply to Office action as specified in §§ 1.111, 1.135. (35 U.S.C. 132)

37 CFR §1.2 Business to be transacted in writing.

All business with the Patent or Trademark Office should be transacted in writing. The personal attendance of applicants or their attorneys or agents at the Patent and Trademark Office is unnecessary. The action of the Patent and Trademark Office will be based exclusively on the written record in the Office. No attention will be paid to any alleged oral promise, stipulation, or understanding in relation to which there is disagreement or doubt.

The action of the Patent and Trademark Office cannot be based exclusively on the written record in the Office if that record is itself incomplete through the failure to record the substance of interviews.

It is the responsibility of the applicant or the attorney or agent to make the substance of an interview of record in the application file, unless the examiner indicates he or she will do so. It is the examiner's responsibility to see that such a record is made and to correct material inaccuracies which bear directly on the question of patentability.

Examiners must complete an Interview Summary Form for each interview held where a matter of substance has been discussed during the interview by checking the appropriate boxes and filling in the blanks. Discussions regarding only procedural matters, directed solely to restriction requirements for which interview recordation is otherwise provided for in Section 812.01 of the Manual of Patent Examining Procedure, or pointing out typographical errors or unreadable script in Office actions or the like, are excluded from the interview recordation procedures below. Where the substance of an interview is completely recorded in an Examiners Amendment, no separate Interview Summary Record is required.

The Interview Summary Form shall be given an appropriate Paper No., placed in the right hand portion of the file, and listed on the "Contents" section of the file wrapper. In a personal interview, a duplicate of the Form is given to the applicant (or attorney or agent) at the conclusion of the interview. In the case of a telephone or video-conference interview, the copy is mailed to the applicant's correspondence address either with or prior to the next official communication. If additional correspondence from the examiner is not likely before an allowance or if other circumstances dictate, the Form should be mailed promptly after the interview rather than with the next official communication.

The Form provides for recordation of the following information:

- Application Number (Series Code and Serial Number)
- Name of applicant
- Name of examiner
- Date of interview
- Type of interview (telephonic, video-conference, or personal)
- Name of participant(s) (applicant, attorney or agent, examiner, other PTO personnel, etc.)
- An indication whether or not an exhibit was shown or a demonstration conducted
- An identification of the specific prior art discussed
- An indication whether an agreement was reached and if so, a description of the general nature of the agreement (may be by attachment of a copy of amendments or claims agreed as being allowable). Note: Agreement as to allowability is tentative and does not restrict further action by the examiner to the contrary.
- The signature of the examiner who conducted the interview (if Form is not an attachment to a signed Office action)

It is desirable that the examiner orally remind the applicant of his or her obligation to record the substance of the interview of each case. It should be noted, however, that the Interview Summary Form will not normally be considered a complete and proper recordation of the interview unless it includes, or is supplemented by the applicant or the examiner to include, all of the applicable items required below concerning the substance of the interview.

A complete and proper recordation of the substance of any interview should include at least the following applicable items:

- 1) A brief description of the nature of any exhibit shown or any demonstration conducted,
- 2) an identification of the claims discussed,
- 3) an identification of the specific prior art discussed,
- 4) an identification of the principal proposed amendments of a substantive nature discussed, unless these are already described on the Interview Summary Form completed by the Examiner,
- 5) a brief identification of the general thrust of the principal arguments presented to the examiner,
(The identification of arguments need not be lengthy or elaborate. A verbatim or highly detailed description of the arguments is not required. The identification of the arguments is sufficient if the general nature or thrust of the principal arguments made to the examiner can be understood in the context of the application file. Of course, the applicant may desire to emphasize and fully describe those arguments which he or she feels were or might be persuasive to the examiner.)
- 6) a general indication of any other pertinent matters discussed, and
- 7) if appropriate, the general results or outcome of the interview unless already described in the Interview Summary Form completed by the examiner.

Examiners are expected to carefully review the applicant's record of the substance of an interview. If the record is not complete and accurate, the examiner will give the applicant an extendable one month time period to correct the record.

Examiner to Check for Accuracy

If the claims are allowable for other reasons of record, the examiner should send a letter setting forth the examiner's version of the statement attributed to him or her. If the record is complete and accurate, the examiner should place the indication, "Interview Record OK" on the paper recording the substance of the interview along with the date and the examiner's initials.

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Mr. Santucci discussed the proposed new aspects of Claim 1 such as having the blanks flat. Mr. Santucci indicated these aspects to be differences between the proposed claims and the prior art cited in the previous office action. Examiner Butler advised that as the proposed claims include new issues, a new review of the prior art would be required for their full consideration. However, a cursory review of Foffano's Fig. 1 indicates elements 2 and 5 to be flat.

PROPOSED CLAIM AMENDMENTS FOR DISCUSSION PURPOSES ONLY

Dear Examiner Butler:

Below are the proposed claim amendments for discussion purposes only in advance of our telephonic interview scheduled for May 17, 2007 at 10:00am.

1. (Currently Amended) A method for manufacturing a part (4, 5) of a sports boot (1) in composite material from flat elements (21, 22), which comprises the following steps:
 - preparing a first flat blank (22) in a first flexible material intended to form the external face of the boot part, and a second flat blank (21) in a second flexible material intended to form the internal face of the boot part (4, 5).

CONFIDENTIALITY NOTICE

If you are not the intended recipient, you are hereby notified that any disclosure, copying, distribution, or the taking of any action in reliance on the contents of this facsimile is strictly prohibited.

00450922

PROPOSED

- placing the first and second flat blanks on the impression of a first half (31) of a mold (30), with the first blank (22) against the impression,
- closing the mold (30) by using its second half (32),
- injecting a foamable binding material between the blanks (21, 22), and
- mold release after polymerization of the injected material so as to obtain the boot part (4, 5) having its final three-dimensional shape.

2. (Original) The method as claimed in claim 1, wherein the part (4, 5) of the sports boot is a part of the upper of the boot.

3. (Original) The method as claimed in claim 1, wherein the first material comprises a synthetic fabric.

4. (Original) The method as claimed in claim 1, wherein the first material comprises an elastic fabric.

5. (Original) The method as claimed in claim 1, wherein the first material is waterproofed by an elastomer.

6. (Original) The method as claimed in claim 1, wherein the first material has a thickness of from 0.8 to 1 mm.

7. (Original) The method as claimed in claim 1, wherein the second material comprises a synthetic fabric.

8. (Original) The method as claimed in claim 1, wherein the second material comprises an elastic fabric.

9. (Original) The method as claimed in claim 1, wherein the second material comprises a polyester felt.

10. (Original) The method as claimed in claim 1, wherein the injected material is a polyurethane foam.

11. (Original) The method for manufacturing a part of a sports boot (1) as claimed in claim 1, wherein at least one element (9a, 10, 11, 12, 23) is affixed to at least one of the blanks (21, 22), which is intended to form the internal or external face of the part, before it is placed in the injection mold (30).

12. (Original) The method as claimed in claim 11, wherein the affixed part is a decorative pattern (23) applied by a screen printing method.

CONFIDENTIALITY NOTICE

The documents accompanying this transmission contain confidential information intended for a specific individual and purpose. The information is private, and is legally protected by law. If you are not the intended recipient, you are hereby notified that any disclosure, copying, distribution, or the taking of any action in reliance on the contents of this facsimile is strictly prohibited.

PROPOSED

13. (Original) The method as claimed in claim 11, wherein the affixed element is an eyelet (9a) for a lace.

14. (Original) The method as claimed in claim 11, wherein the affixed element is a ring (10) for gripping.

15. (Original) The method as claimed in claim 11, wherein the affixed element is a watertight flap (11).

16. (Original) The method as claimed in claim 11, wherein the affixed element is a protecting tongue (12).

17. (Original) The method as claimed in claim 11, wherein the affixed element is a reinforcing element.

18. (Original) The method as claimed in claim 11, wherein the affixed element is a comfort element having a density different to that of the injected foamable material.

19. (Original) The method as claimed in claim 11, wherein the affixed element is a compartment intended to hold an injected personalization material.

20. (Withdrawn) A method for manufacturing an upper (2) of a sports boot (1), wherein parts (4, 5) of an upper which have been produced as claimed in claim 1 are assembled.

21. (Withdrawn) An upper (2) of a sports boot obtained by the method as claimed in claim 20.

22. (Previously Presented) The method as claimed in claim 1, wherein the boot part (4, 5) obtained upon release from the mold has its final three-dimensional shape.

We look forward to speaking with you on Thursday.
